Heat up your employee's working inspiration.

HOME IDEAS CENTRE,
VICTORIA

No matter the temperature outside, it always seems to be too cold in the reception area. By using a compact Heliosa 11 short-wave heater in the office to deliver immediate heat and comfort to your guests and employees and you don't waste excess energy warming up unused areas of a room. A large heat projection for such a small heater - only 1500W heats up to 10m², offering a fresher type of heat.

It is also the kindest heat on your wallet, with DIY installation and no maintenance.
